Hi, I apologize. The file I downloaded was corrupted. I re-downloaded and everything is fine. Again, my apologies, and thank you for all your effort. Eric

Mr. Kleiman:

Our FOIA Officer, Mimi Legan, asked me to look into the issues you were having with the CH FOIA Electronic Reading Room link. I reviewed the pages you cited and did not find any of the blank portions of pages to which you referred. The pages are legible and only redacted (blackened out) where determinations were made for non-responsiveness. Further, I have checked and confirmed that this is the case for the posting dated 4-2-10 from other computers as well. If you can, check the link again or from a different computer. If you continue to have difficulties, please contact us again, and we can provide you with a .pdf via email directly.

Hi, thank you very much for looking at it. I downloaded it and it still appears that portions of pages, and entire pages, are simply blank -- not blacked-out redactions but blank, e.g., page 7, after number 10, "Biological Samples"; page 8, almost entirely blank after first six lines of "experimental proposal"; page 9, blank after "protons alter"; page 10, blank after "and proton," which is barely legible; page 12, blank after "effects of drugs," also barely legible; etc. Pages 15-17 -- almost all blank. I am using Adobe 8 Reader.

Thank you. Eric

Hello Mr. Kleiman,

I just viewed the 4/2/10 PETA response on line and it appears to be all there. Please note that some information is redacted (blacked out) because that information was non-responsive to PETA's request (see the letter at the beginning of the response for information that PETA excluded from the request). There are 71 pages to the 4-2-10 response. I'm not sure what you believe may be missing, so if you can be more specific about what is missing, I can look further. Thank you.

Dear Ms. Legan:

Please be advised that the .pdf file labeled PETAFOIAresponse-4-2-10.pdf is seriously corrupted and/or scanned improperly. Many pages are blank and/or missing significant portions.

Thank you.

Sincerely,

Eric Kleiman

Hello Mr. Kleiman,

Although we did not receive a reply from you by the April 5 deadline Ms. Mikhail indicated in her e-mail below, the documents you were requesting in your subject FOIA request are now publicly available through our FOIA website, so we are providing them to you. Here is the link to our FOIA website Electronic Reading Room - http://doe.lib.uic.edu/foia_frd2.html . If you scroll down to the end of this FOIA electronic reading room webpage, you will see links to one PCRM FOIA response (1/8/10) and two PETA FOIA responses (2/8/10 and 4/2/10). Because those links provide the information you were requesting in your FOIA request, I am considering this a full release of records responsive to your request and I am closing my file accordingly. If you have any questions, please call me at my phone number below.

Dear Mr. Kleiman:

Our office is in receipt of your subject email response to Mr. Michael McCann and request for the same records the People for the Ethical Treatment of Animals (PETA) has requested via PETA's current FOIA request.
